On a very rainy day, on State Highway 165 we visited Bishop Castle. Bishop Castle is an "elaborate and intricate one-man project" named after its constructor, the late Jim Bishop. Made out of stones and steel, that has become a roadside attraction in central Colorado.

This is Gunther being "mature".....

The room on the 2<sup>nd</sup> floor was simply impressive!

Our accommodation in TAOS was an EARTHSHIP !

(An Earthship is a style of architecture developed in the late 20th century to early 21st century by architect M. Reynolds. Earthships are designed to behave as passive solar earth shelters made of both natural and upcycled materials such as earth-packed tires.)

Used tires, bottles and cans.....
